**General Statement of Professional Experience (written by firm)**

Turner Building Science & Design, LLC. is a solutions oriented team, dedicated to the development of healthy environments in new and existing buildings. We use our diverse building science background to create innovative, energy efficient new designs and provide safe, comfortable indoor environments. We strive to integrate engineered systems and architecture facilitating communication between design professionals and working towards quality products and high client satisfaction. Headed by Mr. William A. Turner, M.S., P.E. The collective diagnostic and design experience of our staff includes the indoor air quality evaluation of over 20 million square feet of commercial, industrial, institutional, and educational space.
